There are many Forex brokers to choose from but almost none of them have a clearly defined mission. They are carbon copies of each other. Companies with no imagination, no creativity, nothing new to say - just repackaging the same ideas and the same services over and over again.

**We are different
and we are proud
of it.**

Our mission is to prove that online investing can be easy, fun and completely transparent.

Virtually all brokers are using old outdated trading software from the 1990's.

It's hard for them to offer anything new since they are tied to these outdated trading platforms which are 15-20 years old.

Liga Forex offers a new, unique proprietary trading platform created to be

Intuitive

Fast

Comfortable

Our trading platform's interface is simple but be assured - its software is highly competitive with the leading trading platforms.

Moreover, we provide open access to our execution quality statistics: status.ligaforex.com
